

Secure Our Borders

America is under assault from a flood of illegal immigration. This invasion threatens our jobs, our culture, our national security and the very fabric of our society.

It is the duty of the President to enforce our immigration laws and of Congress to provide the necessary resources. If America is truly at war with the forces of terrorism, we believe the first and most necessary action in that war is to secure our own borders.

Estimates indicate there are now 14 to 20 million illegal aliens living in the US with nearly one million more being added to the population each year. These figures include approximately 115,000 illegals from countries who are of special concern in the war on terror.

The Constitution Party is not anti-immigration nor is it isolationist – we favor wise and well-managed legal immigration. We oppose however, the current out-of-control flood of illegal aliens that threatens to tear apart the very fabric of our society.

Don't direct your anger toward the illegal immigrants, direct your anger where it belongs, against the politicians who have forsaken their oath of office and sold out their own country. We may need to send the illegal aliens home, but let's start by sending some politicians home first.
